TO RAILWAY TRAVELLERS.

RAILWAY ACCIDENTS INSURANCE TICKETS.

The great increase of Travel on the Canadian Railways has led to the issuing of **RAILWAY ACCIDENTS INSURANCE TICKETS**, on some of the leading Railways, upon the same system as has been for many years past, in constant and successful operation on all the English, Scotch, and Irish lines of Railway, and on many of the Continental lines also.

These Tickets are now for sale at all the Principal Stations of **THE GRAND TRUNK RAILWAY**, and its Buffalo and Goderich Division.

The prices of Railway Accidents Insurance Tickets, are :—

To insure \$1,000 in case of Death.....	10 cents.
“ \$500 do	5 cents.

With proportionate compensation in case of personal injury—such as a Broken Leg or Arm : Dislocation, Contusions, &c., &c.

In all cases, the Tickets of Insurance are understood to be of equal duration with Railway Tickets issued for the journey, to the limits of the Province of Canada, and on the Grand Trunk Railway to Portland on the East, and Detroit on the West: covering the risk of the distance for which a Passenger can purchase a Through Ticket, should his journey extend over two or three Canadian lines of Railway, and the ticket is cancelled when the journey is accomplished.

Thus : a Railway Ticket purchased at Quebec for Ottawa is good till the journey is finished; or one purchased at Sarnia for Portland is good till that point is reached; and an Accidents Insurance Ticket, purchased at the same time as the Railway Ticket, is good for the journey the Railway Ticket is bought for, within the prescribed boundaries.

The insurance extends to Accidents while travelling on the Railway only, and not by Stages, Ferries, or Steamboats.

No Railway Passenger should commence the journey without purchasing an Insurance Ticket—the cost being so trifling—as, should a Fatal Accident occur, a sum is left for his family: or, should he receive injuries to his person, he will be paid compensation therefor.

In no case will any loss be paid to any person who, at the time of the accident, was breaking the Rules and Regulations of the Railway Company by riding on the platform of a car, or getting on or off the cars while in motion, or otherwise.

Ask for an **ACCIDENTS INSURANCE TICKET** when you pay your fare.

It has been under the charge of its present Manager, Mr. Decker, for over seven years. During that time large additions and extensive alterations have been made, so that it is now the largest Hotel save one in Montreal. The proprietors, encouraged by the very rapid increase in their patronage, have built a second new Wing, some 160 feet in length, with a new Dining Room capable of seating 300 Guests. The Beds are all furnished with Spring Mattresses, and the House is newly furnished throughout.

The price per day is \$1.50, being that only of an ordinary second class House, whilst the accommodations are first class in every respect.

LIFE & GUARANTEE ASSURANCE. THE EUROPEAN ASSURANCE SOCIETY.

The European Assurance Society, empowered by special Acts of the Imperial and Canadian Parliaments, for the Assurance of Lives, Annuities, and the *guarantee of fidelity in situations of trust*, occupies the offices formerly in the possession of the Grand Trunk, Great St. James' Street. The subscribed capital of the Company is £300,000 stg., with power to increase to one million sterling; the annual revenue from premiums is £160,000 stg., and the assets are over £500,000 stg. So much for the financial position of the Society, and now a word or two as respects its objects. These are very important. The Society in addition to the business usually transacted by Life Assurance Companies, is specially constituted to grant Bonds of Indemnity to Bankers, Merchants, Public Companies, Municipal Corporations, and others against Losses occasioned by the infidelity of their Employees. As far as regards Employers, the Society offers great advantages, inasmuch as it not only secures to them the prompt payment of any loss sustained, but affords the means of avoiding the comparative uncertainty attending on private suretyships. To Employees the Society presents the advantage of enabling them to obviate the unpleasant necessity of resorting to their personal friends, and enabling them, by the payment of a small annual premium, to be their own independent sureties. To Bondsmen, the Society affords, in approved cases, the means of immediate release from the liability under which they have placed themselves or their estates after them, by the substitution of the Society's Bonds for existing suretyships. This system of Guarantee has been thoroughly tested by the Mercantile communities in Great Britain and most of her Colonies, the various Departments of the Imperial Government, in addition, being authorized by special act of the Imperial Parliament, to accept the Bonds of this Society *only*.

The Life Department presents many advantages to Assurers. For example:—All Life Policies issued upon the faithful representations of Assurers are indisputable. Policies, on which five full premiums have been paid, are purchased by the Society. On Policies for over £200 stg., for the whole of life, one half the premiums for first five years may remain unpaid at interest of five per cent. per annum; Three-fourths of the entire profits of the Society are divisible amongst the Life Policy holders on the profit scale of premiums. And last, but not least, all claims, Life or Guarantee, are paid without reference to London.

The combination of Life Assurance with Guarantee, is a feature entirely new, and at the same time, remarkably advantageous. The scheme was introduced by this Society, and is transacted solely by them.

To the Employee, who requires to give security, the opportunity is thus afforded him of assuring his Life, and thereby becoming his own surety *without any extra expense beyond that which he would have to pay any other office for the Life Assurance alone*. For example, a person may require to give, upon entering a situation, a Bond of Security for £250—well, if he assure his Life for £500—the Bond of Security will be granted *free*, and he will yet participate in the profits of the Society.

Thus, by the one payment for Life Assurance, he acquires three great objects:—1st, he secures himself the position he desires; 2d, he secures his family a provision in case of his death, and thirdly, he relieves himself of that most unpleasant relationship—a pecuniary obligation to his friends.

Or again it may appear in another light:—A person takes out a Policy of Life Assurance for say £1000. He may at some future time require to give a Bond of Security for perhaps £500, he has not to look to his friends, the Society is ready to grant that Bond *free of any expense whatever*. However, perhaps he may never require a Bond of Security for himself, but he may have a son or a brother who might wish for that obligation—then again is the utility of the Society manifested—he can transfer his right of security to either. In fact, the holder of a Life Policy in this Society has in his power the disposal of the Society's security to a proportionate amount, at any time, without any extra charge being imposed upon him. This is truly a branch in Life Assurance which cannot fail to tell its own tale.

In October, 1863, the Society established a branch in Canada, and such has been the appreciation of its principles, that it has met with a success much beyond its expectations.

Most of the Banks, Railways and Public Companies in Canada have already adopted its Bonds in lieu of private security, and in addition, the Provincial Parliament last session passed an Act authorizing the Society's Bonds to be accepted as security from officers in all Departments under Government.

The Board of Directors in Canada, are men of high standing and responsibility, as may be seen by a glance at the Society's Prospectus.

HINTS

TO

RAILWAY TRAVELLERS.

You will save money by purchasing your Tickets before entering the cars.

CHECK YOUR BAGGAGE and the Company will then be responsible for it. Baggage in Passenger Cars is a source of anxiety to the owner: causes inconvenience to others; and is unsightly and altogether out of place.

Baggage can be checked *through* from places in Canada to the United States and *vice versa*; but in such cases the law requires each Passenger to point out his Baggage to the Customs' Officer at the Frontier Station, in order that it may be examined.

The following is a list of Custom House Stations:—

	<i>American.</i>	<i>Canadian.</i>
Between PORTLAND and MONTREAL	ISLAND POND...	COATICOOKE
" NEW YORK or BOSTON and MONTREAL	ROUSE'S POINT ..	ROUSE'S POINT
" MONTREAL and PLATTSBURGH.	MOORE'S JUNC.	HEMINGFORD

CHICAGO	PORT HURON	SARNIA

Avoid altercations with Conductors or other Employés of the Company. If you have a grievance make it known by letter to the Managing Director at Montreal and you will obtain redress. Conductors have very responsible and arduous duties to perform on the journey, which require the utmost diligence on their part, and they have not time to enter into long discussions.

IT IS DANGEROUS to stand on the platform of cars or move from one car to another, or attempt to get on or off whilst the Train is in motion. Heads and arms are safest when they are *inside* the car windows.

FIRE and LIFE INSURANCE Business transacted on the most favorable terms.

Short period GRAIN and other risks, taken on advantageous terms and at moderate rates.

The Directors having received instructions from the Home Office to introduce the Life Branch of this Company in Canada, have much pleasure in stating that they are now prepared to grant Life Policies and Annuities, and to secure to their clients all the benefits derivable from the system of Life Assurance.

The high position and large patronage hitherto enjoyed by the Company in the Fire Department will, it is hoped, aid in securing for it a share of Life risks.

"TABLES OF RATES"

adapted to the circumstances of all classes may be obtained at the Montreal Offices and of the Company's Agents generally throughout the Provinces.
